

**Happy 50<sup>th</sup> UMB!**

## ***How about respecting your employees?***

UMass has launched an unprecedented attack on our sick leave, vacation leave, overtime, comp time, fair hiring and other longstanding negotiated benefits and policies.

And we're uniting to defend our contracts and demand respect from our employer.

Join us on **Tuesday, October 7<sup>th</sup> at 9:30 am at the corner of the Boston Common opposite the State House**. Professional staff, classified staff, graduate employees and faculty will be there to let UMass President Caret, Chancellor Motley, and the public know that:

- A public university is only as great as its dedicated employees.
- A great public university doesn't reward its top administrators with huge salary increases while chiseling away at the take-home pay and benefits of its lowest-paid staff.
- A great public university doesn't invest in new buildings while disinvesting in the faculty and staff who deliver the education to the students those buildings are meant to attract.
- A great public university doesn't turn its administrative back on those who shouldered the burden of keeping the University going during the lean years.
